VOLUME 73: SUBJECT INDEX

- Abdominal migraine**, Double blind placebo controlled trial of pizotifen syrup in the treatment of abdominal migraine: *correspondence*, 183
- Abdominal pain**, Indications for investigation of chronic gastrointestinal symptoms, 354
- Abdominal radiograph**
Radiological assessment of constipation, 532
Radiological evidence of constipation in urinary tract infection, 534
- Abstinence syndrome**, Neonatal abstinence syndrome: *correspondence*, F122
- Acellular pertussis vaccines**, Acellular pertussis vaccines: *annotation*, 390
- Acute lymphoblastic leukaemia** Maintenance treatment and shared care in lymphoblastic leukaemia: *personal practice*, 368
- Acute renal failure**
Haemodialysis and ultrafiltration in babies weighing under 1000 g, F162
Managing acute renal failure in very low birthweight infants: *current topic*, F187
- Acute respiratory distress syndrome**, Transfer of critically ill patients with inhaled nitric oxide: *correspondence*, 480
- Acute respiratory infection**, Acute respiratory infection: a global challenge: *annotation*, 281
- Adjustment**, Stepfamilies and children's adjustment: *annotation*, 487
- Adolescents**
Asthma knowledge, attitudes, and quality of life in adolescents, 321
Cognitive behaviour therapy in children and adolescents: *current topic*, 472
Plasma cholesterol and other cardiac risk factors in adolescent girls, 392
- Adrenocortical insufficiency**, Filter paper cortisol profiles in secondary adrenocortical insufficiency, 351
- Adult learning theory**, Adult learning theory, problem based learning, and paediatrics: *current topic*, 357
- Advice**, What do mothers remember about the 'Back to Sleep' campaign? 496
- Aerosol**, A non-electrostatic spacer for aerosol delivery, 226
- Air pollution**, Bronchial responsiveness, eosinophilia, and short term exposure to air pollution, 418
- Airway obstruction**, Apparent life threatening events and infant holding practices, 502
- Allopurinol**, Randomised controlled trial of allopurinol prophylaxis in very preterm infants, F27
- AmBisome**, Visceral leishmaniasis: rapid response to AmBisome treatment, 157
- Amblyopia**, Is community screening for amblyopia possible, or appropriate? *annotation*, 192
- Amiloride**, Nebulised amiloride in respiratory exacerbations of cystic fibrosis: a randomised controlled trial, 427
- Amino acid solutions**, Low birthweight infants and total parenteral nutrition immediately after birth. II. Randomised study of biochemical tolerance of intravenous glucose, amino acids, and lipid, F8
- Anaemia of prematurity**, Autologous umbilical cord blood transfusion, F181
- Anaphylactic reactions**, Management of anaphylactic reactions to food: *correspondence*, 89, 184
- Anterior gastropexy**, Gastric volvulus and associated gastro-oesophageal reflux, 462
- Antiemetic**, Randomised comparison of ondansetron and metoclopramide plus dexamethasone for chemotherapy induced emesis, 243
- Antidiuretic hormone**, Antidiuretic hormone regulation in patients with primary nocturnal enuresis, 508
- Antioxidants**, Antioxidants in neonatal lung disease: *current topic*, F112
- Aortic valve stenosis**, Contemporary results of balloon valvuloplasty and surgical valvotomy for congenital aortic stenosis, 66
- Aortopulmonary pressure**, Pulmonary haemodynamics after surfactant replacement in severe neonatal respiratory distress syndrome, F95
- Apparent life threatening events**, Apparent life threatening events and infant holding practices, 502
- Apple juice**, Fluid intake and industrial processing in apple juice induced chronic non-specific diarrhoea, 126
- Arrhythmias**, Treatment of arrhythmias by radiofrequency ablation: *annotation*, 385
- Arterial hypoxia**, Blood eosinophil counts and arterial oxygen tension in acute asthma, 333
- Aseptic meningitis**, Co-trimoxazole induced aseptic meningitis, 257
- Asian families**, Infantile osteopetrosis; bone marrow transplantation from a cousin donor, 453
- Asphyxia**, Acute effects of two different doses of magnesium sulphate in infants with birth asphyxia, F174
- Asthma**
Airway reactivity in parents of infants and young children with recurrent wheeze: a case-control study, 423
Asthma, enuresis, and chronic illness: long term impact on height, 298
Asthma knowledge, attitudes, and quality of life in adolescents, 321
Blood eosinophil counts and arterial oxygen tension in acute asthma, 333
Clinical value of monitoring eosinophil activity in asthma, 413
Efficacy and cost effectiveness of inhaled steroids in asthma in a developing country: an epilogue: *correspondence*, 482
Genetic factors in the presence, severity, and triggers of asthma, 112
Indoor environmental risk factors in young asthmatics: a case-control study, 408
Persistent increase in plasma and urinary leukotrienes after acute asthma, 221
Persistent nocturnal cough in childhood: a population based study, 403
Plasma interleukin-3 and interleukin-4 concentrations in Turkish asthmatic children: *correspondence*, 378
Respiratory illness in families of preterm infants with chronic lung disease, F147
- Ataxia telangiectasia**, Severe microcephaly with normal intellectual development: the Nijmegen breakage syndrome, 431
- Atopic dermatitis**
Controlled trial of a few foods diet in severe atopic dermatitis, 202
Nutritional content of few foods diet in atopic dermatitis, 208
- Atrioventricular block**, Abrupt aggravation of atrioventricular block and syncope in hypertrophic cardiomyopathy, 536
- Audio tape**, Putting it on tape: audio taped assessment summaries for parents, 435
- Autologous transfusion**, Autologous umbilical cord blood transfusion, F181
- Autonomic dysfunction**, Cardiovascular autonomic dysfunction in diabetes mellitus, 515
- 'Back to Sleep' campaign**, What do mothers remember about the 'Back to Sleep' campaign? 496
- Bacterial antigens**, Failure of the urinary group B streptococcal antigen test as a screen for neonatal sepsis, F109
- Bacterial meningitis**, Latex agglutination testing in bacterial meningitis, 160
- Bacterial toxins**, Effects of nicotine on bacterial toxins associated with cot death: *hypothesis*, 549
- Balloon dilatation**, Contemporary results of balloon valvuloplasty and surgical valvotomy for congenital aortic stenosis, 66
- Beclomethasone dipropionate**
Bone and collagen turnover during treatment with inhaled dry powder budesonide and beclomethasone dipropionate, 524
The effects of inhaled beclomethasone dipropionate on lung function and histamine responsiveness in recurrently wheezy infants, 327
- Bed allocation**, Calculation of the need for paediatric intensive care beds, 505
- Behaviour**, Behaviour in mucopolysaccharide disorders, 77
- Bias**, Need to avoid bias in controlled trials: *correspondence*, F121
- Biliary atresia**, Screening for biliary atresia: *correspondence*, 182
- Birth weight**
Birth weight at term and lung function in adolescence: no evidence for a programmed effect, 231
Birth weight in phenylketonuria: *correspondence*, 276
Size at birth and plasma insulin-like growth factor-1 concentrations, 287
- Blindness**, Neurosensory outcome at 5 years and extremely low birthweight, F143
- Blood pressure**
Acute blood pressure response to surfactant administration: *correspondence*, F197
Blood pressure and smoking: observations on a national cohort, 294
Maternal smoking and blood pressure in 7.5 to 8 year old offspring: *correspondence*, 378
- BMI charts**, Body mass index centile charts to assess fatness of British children: *correspondence*, 87
- Body fatness**, Determination of body composition from skinfold thickness: a validation study, 305
- Body mass index**
Body mass index centile charts to assess fatness of British children: *correspondence*, 87

- Body mass index reference curves for the UK, 1990, 25
Prevalence and correlates of obesity in insulin dependent diabetic patients, 239
- Body temperature**, Factors affecting rectal temperature in infancy, 443
- Bone marrow transplantation**
Cardiac involvement in mucopolysaccharidoses: effects of allogeneic bone marrow transplantation, 259
Infantile osteopetrosis; bone marrow transplantation from a cousin donor, 453
- Bone mineral density**, Osteopenia in Crohn's disease, 255
- Bone turnover**, Bone and collagen turnover during treatment with inhaled dry powder budesonide and beclomethasone dipropionate, 524
- Bowel preparation**, Preparing the bowel for colonoscopy, 459
- Brain tumour**, Growth and puberty after growth hormone treatment after irradiation for brain tumours, 141
- Breast feeding**, Trends in breast feeding in New Zealand: *correspondence*, 88
- British Paediatric Association**, The new BPA classification: *current topic*, 563
- Brittle bone disease**, A judicial comment on temporary brittle bone disease: *correspondence*, 379
- Bronchial provocation tests**, Bronchial responsiveness, eosinophilia, and short term exposure to air pollution, 418
- Bronchial reactivity**, Airway reactivity in parents of infants and young children with recurrent wheeze: a case-control study, 423
- Bronchial responsiveness**, The effects of inhaled beclomethasone dipropionate on lung function and histamine responsiveness in recurrently wheezy infants, 327
- Bronchiolitis**, Role of ECMO in the treatment of respiratory syncytial virus bronchiolitis: a collaborative report, F91
- Bronchoalveolar lavage fluid**, Cellular profile of bronchoalveolar lavage fluid in pulmonary tuberculosis: *correspondence*, 182
- Bronchopulmonary dysplasia**
Inflammatory mediators and bronchopulmonary dysplasia: *annotation*, F1
Neurodevelopmental outcome of preterm infants with bronchopulmonary dysplasia, F128
- Budesonide**, Bone and collagen turnover during treatment with inhaled dry powder budesonide and beclomethasone dipropionate, 524
- Budin, Pierre**, Professor Pierre Budin (1846-1907) of Paris, and modern perinatal care: *perinatal lessons from the past*, F193
- Burkholderia cepacia**, *Burkholderia cepacia* and F508 homozygosity in cystic fibrosis: *correspondence*, 276
- C reactive protein**, Indications for investigation of chronic gastrointestinal symptoms, 354
- Cardiac arrest**, Cardiac arrest associated with vancomycin in a neonate: *correspondence*, F123
- Cardiac risk factors**, Plasma cholesterol and other cardiac risk factors in adolescent girls, 392
- Cat**, Indoor environmental risk factors in young asthmatics: a case-control study, 408
- Catch-up growth**, Catch-up growth and pancreatic function in growth retarded neonates, F158
- CD45 isoforms**, Group B streptococcal infection: when does vertical transmission take place? F46
- Centile charts**, Body mass index centile charts to assess fatness of British children: *correspondence*, 87
- Central venous lines**, ECG and echocardiographic diagnosis of pulmonary thromboembolism associated with central venous lines, 147
- Cerebral artery blood flow velocity**, Raised cerebral artery blood flow velocity: *correspondence*, F121
- Cerebral blood flow**, Oxygen at birth and prolonged cerebral vasoconstriction in preterm infants, F81
- Cerebral function monitor**, Predictive value of early neuroimaging, pulsed Doppler and neurophysiology in full term infants with hypoxic-ischaemic encephalopathy, F75
- Cerebral palsy**
Model to identify potentially preventable cerebral palsy of intrapartum origin, F106
Neurosensory outcome at 5 years and extremely low birthweight, F143
- Cerebral ultrasound**
Ischaemic and haemorrhagic brain lesions in newborns with seizures and normal Apgar scores, F67
Neural migration disorders studied by cerebral ultrasound and colour Doppler flow imaging, F55
Predictive value of early neuroimaging, pulsed Doppler and neurophysiology in full term infants with hypoxic-ischaemic encephalopathy, F75
- Cerebrospinal fluid**, Cerebrospinal fluid zinc concentrations in febrile convulsions, 338
- Chemotherapy**, Growth and puberty after growth hormone treatment after irradiation for brain tumours, 141
- Chickenpox**, Reactivation of chickenpox contracted in infancy, 162
- Child abuse**
A judicial comment on temporary brittle bone disease: *correspondence*, 379
Making paediatric assessment in suspected sexual abuse a therapeutic experience: *personal practice*, 174
- Child development centre**, Putting it on tape: audio taped assessment summaries for parents, 435
- Child health education**
Child health education for the year 2000, 261
Core knowledge, skills, and attitudes in child health for undergraduates, 263
Core knowledge, skills, and attitudes for undergraduates: kindling curiosity, 268
Teaching undergraduates child health: what, how, where, and when? 266
- Child health statistical review**, Child health statistical review, 1995, 541
- Child health surveillance**, Parents' views of health surveillance, 57
- Childhood cancers**, Childhood cancers in Zambia before and after the HIV epidemic, 100
- Childhood illness**, Asthma, enuresis, and chronic illness: long term impact on height, 298
- Choledochal cyst**, Choledochal cysts: lessons from a 20 year experience, 528
- Cholesterol**
Cholesterol and diet: *Archivist*, 341
Plasma cholesterol and other cardiac risk factors in adolescent girls, 392
- Cholestyramine**, Response to drugs and diet in a compound heterozygote for familial hypercholesterolaemia, 538
- Chromosome breakage**, Severe microcephaly with normal intellectual development: the Nijmegen breakage syndrome, 431
- Chronic lung disease of the newborn**, Respiratory illness in families of preterm infants with chronic lung disease, F147
- Chymotrypsin**, Catch up growth and pancreatic function in growth retarded neonates, F158
- Classification**, The new BPA classification: *current topic*, 563
- Clinical trials**, Recruiting patients to clinical trials: lessons from studies of growth hormone treatment in renal failure, 30
- Clumsiness**, Motor impairment in children 12 to 13 years old with a birthweight of less than 1250 g, F62
- Co-trimoxazole**, Co-trimoxazole induced aseptic meningitis, 257
- Coeliac disease**
Coeliac disease in children of West Indian origin, 166
Molecular biology of coeliac disease: *annotation*, 189
Screening tests for coeliac disease: *annotation*, 3
- Cognitive behaviour therapy**, Cognitive behaviour therapy in children and adolescents: *current topic*, 472
- Cognitive outcome**, Parental factors in cognitive outcome of non-handicapped low birthweight infants, F135
- Collagen**, Skin collagen defects in a patient with juvenile hyaline fibromatosis, 246
- Collagen turnover**, Bone and collagen turnover during treatment with inhaled dry powder budesonide and beclomethasone dipropionate, 524
- Colonic strictures**, Colonic strictures in cystic fibrosis: *correspondence*, 184
- Colonoscopy**, Preparing the bowel for colonoscopy, 459
- Colorectal polyps**, Hydrosonography in the evaluation of colorectal polyps, 70
- Colostrum**, Effect of human colostrum on interleukin-2 production and natural killer cell activity, F99
- Colour Doppler flow imaging**, Neural migration disorders studied by cerebral ultrasound and colour Doppler flow imaging, F55
- Colposcope**, Colposcopic genital findings in prepubertal girls assessed for sexual abuse: *controversy*, 465: *commentary*, 469: *correspondence*, 480
- Communication**
Putting it on tape: audio taped assessment summaries for parents, 435
The art of communication with children: *correspondence*, 277
- Conditional reference**, Conditional reference charts to assess weight gain in British infants, 8
- Congenital heart defects**, Contemporary results of balloon valvuloplasty and surgical valvotomy for congenital aortic stenosis, 66
- Constipation**
Radiological assessment of constipation, 532
Radiological evidence of constipation in urinary tract infection, 534

- Constitutional delay**, A double blind, placebo controlled study of the effects of low dose testosterone undecanoate on the growth of small for age, prepubertal boys, 131: *correspondence*, 184
- Constitutional tall stature**, Long term sequelae of sex steroid treatment in the management of constitutionally tall stature, 311
- Consumer satisfaction**, Development and satisfaction with individual programme planning in a disability service, 43
- Controlled trial**
Nebulised amiloride in respiratory exacerbations of cystic fibrosis: a randomised controlled trial, 427
Need to avoid bias in controlled trials: *correspondence*, F121
- Convulsions**
Cerebrospinal fluid zinc concentrations in febrile convulsions, 338
Morbidity from excessive intake of high energy fluids: the 'squash drinking syndrome': *correspondence*, 277
Problems of differentiation between epilepsy and non-epileptic paroxysmal events in the first year of life, 342
- Cord blood**, Autologous umbilical cord blood transfusion, F181
- Cord care**, Pros and cons of antiseptic cord care: *correspondence*, F122
- Core curriculum**
Core knowledge, skills, and attitudes in child health for undergraduates, 263
Core knowledge, skills, and attitudes for undergraduates: kindling curiosity, 268
Teaching undergraduates child health: what, how, where, and when? 266
- Coronary heart disease**, Lipid profile with paternal history of coronary heart disease before age 40, 62
- Correction**, F198
- Cortisol profiles**, Filter paper cortisol profiles in secondary adrenocortical insufficiency, 351
- Cot death**
Immunisation and the sudden infant death syndrome, 498
What do mothers remember about the 'Back to Sleep' campaign? 496
- Cough**, Persistent nocturnal cough in childhood: a population based study, 403
- Cows' milk intolerance**
Comparison of an elemental with a hydrolysed whey formula in intolerance to cows' milk, 211
Differentiation of cows' milk intolerance and gastro-oesophageal reflux, 439
- Cranial radiotherapy**, Intellectual performance after presymptomatic cranial radiotherapy for leukaemia: effects of age and sex, 136
- CRIB score**, Use of the CRIB (clinical risk index for babies) score in prediction of neonatal mortality and morbidity, F32
- Critically ill patients**, Transfer of critically ill patients with inhaled nitric oxide: *correspondence*, 480
- Crohn's disease**
Indications for investigation of chronic gastrointestinal symptoms, 354
Osteopenia in Crohn's disease, 255
- Crying**, Role of gastro-oesophageal reflux in infant irritability, 121
- CT scan**, The place of the EEG and imaging in the management of seizures, 557
- Cystic adenomatous malformation of the lung**, Transfer of critically ill patients with inhaled nitric oxide: *correspondence*, 480
- Cystic fibrosis**
Burkholderia cepacia and F508 homozygosity in cystic fibrosis: *correspondence*, 276
Colonic strictures in cystic fibrosis: *correspondence*, 184
Effect of respiratory virus infections including rhinovirus on clinical status in cystic fibrosis, 117
Faecal interleukin-8 and tumour necrosis factor- α concentrations in cystic fibrosis, 74
Lung function from infancy to school age in cystic fibrosis, 519
Nebulised amiloride in respiratory exacerbations of cystic fibrosis: a randomised controlled trial, 427
- Data**, Survival data: statistics from the inside, 374
- Data collection**, Data collection and management for research studies, 364
- DDAVP treatment**, Antidiuretic hormone regulation in patients with primary nocturnal enuresis, 508
- Deafness**, Neurosensory outcome at 5 years and extremely low birth-weight, F143
- Death**, Guidance after twin and singleton death: *correspondence*, F123
- Developing countries**, Vitamin A supplementation in developing countries: *correspondence*, 275
- Developmental delay**, Trichothiodystrophy with sideroblastic anaemia and developmental delay, 249
- Diabetes mellitus**
Cardiovascular autonomic dysfunction in diabetes mellitus, 515
Foot pathology in insulin dependent diabetes, 151
Microalbuminuria and nephropathy in insulin dependent diabetes mellitus: *annotation*, 4
Prevalence and correlates of obesity in insulin dependent diabetic patients, 239
- Diamorphine**, Randomised, double blind trial of two loading dose regimens of diamorphine in ventilated newborn infants, F22
- Diarrhoea**, Fluid intake and industrial processing in apple juice induced chronic non-specific diarrhoea, 126
- Dick-Read, Grantly**, Dr Grantly Dick-Read: *correspondence*, F197
- DIDMOAD syndrome**, Growth hormone deficiency and empty sella in DIDMOAD syndrome: an endocrine study, 251
- Diet**
Cholesterol and diet: *Archivist*, 341
Controlled trial of a few foods diet in severe atopic dermatitis, 202
Diet, obesity, and metabolic control in girls with insulin dependent diabetes mellitus, 398
Nutritional content of few foods diet in atopic dermatitis, 208
- Dilated cardiomyopathy**, Heart transplantation for dilated cardiomyopathy, 447
- Diphtheria**, Diphtheria: are we ready for it? *current topic*, 568
- Disability**
Development and satisfaction with individual programme planning in a disability service, 43
The classification of disability: *annotation*, 91
- Dopa responsive dystonia**, Dopa responsive dystonia, 256
- Doppler ultrasonography**, Predictive value of early neuroimaging, pulsed Doppler and neurophysiology in full term infants with hypoxic-ischaemic encephalopathy, F75
- Doppler ultrasound**, Pulmonary haemodynamics after surfactant replacement in severe neonatal respiratory distress syndrome, F95
- Dystonia**, Dopa responsive dystonia, 256
- Ear sounds**, Otoacoustic emissions: *annotation*, 284
- Eating**, Parents, children, and eating: *Archivist*, 29
- Echocardiography**
Cardiac involvement in mucopolysaccharidoses: effects of allogeneic bone marrow transplantation, 259
ECG and echocardiographic diagnosis of pulmonary thromboembolism associated with central venous lines, 147
- Ectodermal dysplasia**, Ectodermal dysplasia and immunodeficiency: *correspondence*, 185
- Electrocardiogram**, ECG and echocardiographic diagnosis of pulmonary thromboembolism associated with central venous lines, 147
- Electroencephalogram**
The EEG and neuroimaging in the management of the epilepsies: *personal practice*, 552
The place of the EEG and imaging in the management of seizures, 557
- Elemental formula**, Comparison of an elemental with a hydrolysed whey formula in intolerance to cows' milk, 211
- Emesis**, Randomised comparison of ondansetron and metoclopramide plus dexamethasone for chemotherapy induced emesis, 243
- Empty sella**, Growth hormone deficiency and empty sella in DIDMOAD syndrome: an endocrine study, 251
- Encephalopathy**, Model to identify potentially preventable cerebral palsy of intrapartum origin, F106
- Endometrial shedding**, Premenarchal endometrial shedding revealed by peritoneal dialysis: *correspondence*, 88
- Endothelium**, Abundance of endothelial nitric oxide synthase in newborn intrapulmonary arteries, F17
- Energy expenditure**, Low birthweight infants and total parenteral nutrition immediately after birth. I. Energy expenditure and respiratory quotient of ventilated and non-ventilated infants, F4
- Enteral feeding**, Gall bladder contractility in neonates: effect of parenteral and enteral feeding: formula mistake, F198
- Enterocolitis**, Hirschsprung's enterocolitis: *Archivist*, 377
- Enuresis**
Antidiuretic hormone regulation in patients with primary nocturnal enuresis, 508
Asthma, enuresis, and chronic illness: long term impact on height, 298
- Eosinophils**
Blood eosinophil counts and arterial oxygen tension in acute asthma, 333
Bronchial responsiveness, eosinophilia, and short term exposure to air pollution, 418
Clinical value of monitoring eosinophil activity in asthma, 413
- Epilepsy(ies)**
Problems of differentiation between epilepsy and non-epileptic paroxysmal events in the first year of life, 342

- The EEG and neuroimaging in the management of the epilepsies: *personal practice*, 552
- The place of the EEG and imaging in the management of seizures, 557
- Evoked potentials**, Predictive value of early neuroimaging, pulsed Doppler and neurophysiology in full term infants with hypoxic-ischaemic encephalopathy, F75
- Extracorporeal membrane oxygenation**, Role of ECMO in the treatment of respiratory syncytial virus bronchiolitis: a collaborative report, F91
- $\Delta F508$, *Burkholderia cepacia* and $\Delta F508$ homozygosity in cystic fibrosis: *correspondence*, 276
- Familial hypercholesterolaemia**
- Liver transplantation for homozygous familial hypercholesterolaemia, 456
- Response to drugs and diet in a compound heterozygote for familial hypercholesterolaemia, 538
- Family Fund database**, The Family Fund database – an underused research resource: *correspondence*, 182
- Family meals**, Family meals: a thing of the past, 356
- Family relationships**, Stepfamilies and children's adjustment: *annotation*, 487
- Fat emulsion**, Low birthweight infants and total parenteral nutrition immediately after birth. II. Randomised study of biochemical tolerance of intravenous glucose, amino acids, and lipid, F8
- Fat free mass**, Determination of body composition from skinfold thickness: a validation study, 305
- Fatness**, Body mass index centile charts to assess fatness of British children: *correspondence*, 87
- Fatty acid oxidation defect**, Mitochondrial very long chain acyl-CoA dehydrogenase deficiency – a new disorder of fatty acid oxidation, F103
- Febrile convulsions**, The place of the EEG and imaging in the management of seizures, 557
- Felodipine**, A crossover comparison of extended release felodipine with prolonged action nifedipine in hypertension, 154
- Fetal monitoring**, Model to identify potentially preventable cerebral palsy of intrapartum origin, F106
- Fetal obstructive uropathy**, Analysis of fetal and neonatal urine using proton nuclear magnetic resonance spectroscopy, F153
- Fetofetal transfusion syndrome**
- Fetofetal transfusion in triplets, F41
- Mechanism of visceral damage in fetofetal transfusion syndrome: *current topic*, F48
- Few foods diet**
- Controlled trial of a few foods diet in severe atopic dermatitis, 202
- Nutritional content of few foods diet in atopic dermatitis, 208
- Filter paper assay**, Filter paper cortisol profiles in secondary adrenocortical insufficiency, 351
- Final height**, Growth and puberty after growth hormone treatment after irradiation for brain tumours, 141
- Fluid intake**, Fluid intake and industrial processing in apple juice induced chronic non-specific diarrhoea, 126
- Food allergy**, Management of anaphylactic reactions to food: *correspondence*, 89, 184
- Food intake**, Parents, children, and eating: *Archivist*, 29
- Foot pathology**, Foot pathology in insulin dependent diabetes, 151
- Formula milk**, The effect of iron in formula milk after 6 months of age, 216
- Fulminant hepatic failure**, Liver transplantation for neonatal haemochromatosis, F178
- Gallbladder volume**, Gallbladder contractility in neonates: effect of parenteral and enteral feeding: formula mistake, F198
- Gastric volvulus**, Gastric volvulus and associated gastro-oesophageal reflux, 462
- Gastro-oesophageal reflux**
- Diagnosis and treatment of gastro-oesophageal reflux, 82
- Differentiation of cows' milk intolerance and gastro-oesophageal reflux, 439
- Gastric volvulus and associated gastro-oesophageal reflux, 462
- Role of gastro-oesophageal reflux in infant irritability, 121
- General anaesthesia**, Effect of general anaesthesia on prolonged intraoesophageal pH monitoring, 235
- Genetic factors**, Genetic factors in the presence, severity, and triggers of asthma, 112
- Genetic testing**, Genetic testing of children: *annotation*, 97
- Genital findings**, Colposcopic genital findings in prepubertal girls assessed for sexual abuse: *controversy*, 465: *commentary*, 469: *correspondence*, 480
- Glycaemic control**, Is microalbuminuria progressive?, 512
- Graft-versus-host disease**, Irradiation in the prevention of transfusion associated graft-versus-host disease: *annotation*, 388
- Group B streptococci**, Group B streptococcal infection: when does vertical transmission take place? F46
- Growth**
- A double blind, placebo controlled study of the effects of low dose testosterone undecanoate on the growth of small for age, prepubertal boys, 131
- Conditional reference charts to assess weight gain in British infants, 8
- Factors associated with lowered intelligence in homozygous sickle cell disease, 316
- Infant length measurements: *correspondence*, 379
- Maternal HIV infection, drug use, and growth of uninfected children in their first 3 years, 490
- Medicalisation of the normal variant – treatment of the short, sexually immature adolescent boy: *correspondence*, 183
- Screening for growth: towards 2000: *correspondence*, 87
- Growth hormone**
- Cardiac effects of growth hormone in short normal children: *correspondence*, 278
- Compliance with growth hormone treatment – are they getting it? *correspondence*, 277
- Growth hormone deficiency and empty sella in DIDMOAD syndrome: an endocrine study, 251
- Growth and puberty after growth hormone treatment after irradiation for brain tumours, 141
- Recruiting patients to clinical trials: lessons from studies of growth hormone treatment in renal failure, 30
- Short stature and chronic renal failure: what concerns children and parents?, 36
- Third trimester fetal growth and umbilical venous blood concentrations of IGF-1, IGFBP-1, and growth hormone at term, F87
- Growth reference**, Body mass index reference curves for the UK, 1990, 25
- ¹H NMR spectroscopy**, Analysis of fetal and neonatal urine using proton nuclear magnetic resonance spectroscopy, F153
- Haematocrit**, Comparison of two reflectance photometers in the assessment of neonatal hypoglycaemia, F170
- Haemochromatosis**, Liver transplantation for neonatal haemochromatosis, F178
- Haemodialysis**, Haemodialysis and ultrafiltration in babies weighing under 1000 g, F162
- Hair growth**, Minoxidil induced hair growth after leukaemia treatment? *correspondence*, 184
- Health surveillance**, Parents' views of health surveillance, 57
- Heart defects**, Contemporary results of balloon valvuloplasty and surgical valvotomy for congenital aortic stenosis, 66
- Heart transplantation**, Heart transplantation for dilated cardiomyopathy, 447
- Height**, Asthma, enuresis, and chronic illness: long term impact on height, 298
- Herpes zoster**, Reactivation of chickenpox contracted in infancy, 162
- Hirschsprung's enterocolitis**, Hirschsprung's enterocolitis: *Archivist*, 377
- HIV epidemic**, Childhood cancers in Zambia before and after the HIV epidemic, 100

- Syncope**, Abrupt aggravation of atrioventricular block and syncope in hypertrophic cardiomyopathy, 536
- Systolic blood pressure**, Size at birth and plasma insulin-like growth factor-1 concentrations, 287
- Tape recordings**, Putting it on tape: audio taped assessment summaries for parents, 435
- Teaching**
 Core knowledge, skills, and attitudes in child health for undergraduates, 263
 Core knowledge, skills, and attitudes for undergraduates: kindling curiosity, 268
 Teaching undergraduates child health: what, how, where, and when? 266
- Temperature**
 Factors affecting rectal temperature in infancy, 443
 Overnight oscillations of rectal temperature: *correspondence*, 277
- Temporary brittle bone disease**, A judicial comment on temporary brittle bone disease: *correspondence*, 379
- Testosterone undecanoate**, A double blind, placebo controlled study of the effects of low dose testosterone undecanoate on the growth of small for age, prepubertal boys, 131: *correspondence*, 184
- Thoracic gas volume**, Lung function from infancy to school age in cystic fibrosis, 519
- Total parenteral nutrition**, Low birthweight infants and total parenteral nutrition immediately after birth. I. Energy expenditure and respiratory quotient of ventilated and non-ventilated infants, F4: II. Randomised study of biochemical tolerance of intravenous glucose, amino acids, and lipid, F8: III. Randomised study of energy substrate utilisation, nitrogen balance, and carbon dioxide production, F13
- Transfusion**, Irradiation in the prevention of transfusion associated graft-versus-host disease: *annotation*, 388
- Travelling wave theory**, Otoacoustic emissions: *annotation*, 284
- Trichothiodystrophy**, Trichothiodystrophy with sideroblastic anaemia and developmental delay, 249
- Triggers**, Genetic factors in the presence, severity, and triggers of asthma, 112
- Triplet pregnancies**, Outcome of triplet pregnancies: *correspondence*, F197
- Triplets**, Fetofetal transfusion in triplets, F41
- Tumour necrosis factor-alpha**, Faecal interleukin-8 and tumour necrosis factor- α concentrations in cystic fibrosis, 74
- Turkish children**, Plasma interleukin-3 and interleukin-4 concentrations in Turkish asthmatic children: *correspondence*, 378
- Twin and singleton death**, Guidance after twin and singleton death: *correspondence*, F123
- Ultrafiltration**, Haemodialysis and ultrafiltration in babies weighing under 1000 g, F162
- Ultrasound**
 Ischaemic and haemorrhagic brain lesions in newborns with seizures and normal Apgar scores, F67
 Neural migration disorders studied by cerebral ultrasound and colour Doppler flow imaging, F55
 Predictive value of early neuroimaging, pulsed Doppler and neurophysiology in full term infants with hypoxic-ischaemic encephalopathy, F75
 Pulmonary haemodynamics after surfactant replacement in severe neonatal respiratory distress syndrome, F95

- Umbilical blood**, Third trimester fetal growth and umbilical venous blood concentrations of IGF-1, IGFBP-1, and growth hormone at term, **F87**
- Undergraduates**
Core knowledge, skills, and attitudes in child health for undergraduates, **263**
Core knowledge, skills, and attitudes for undergraduates: kindling curiosity, **268**
Teaching undergraduates child health: what, how, where, and when?, **266**
- Ureaplasma urealyticum**, *Ureaplasma urealyticum* as a cause of pneumonia in preterm infants: analysis of the white cell response, **F37**
- Urinalysis**, Analysis of fetal and neonatal urine using proton nuclear magnetic resonance spectroscopy, **F153**
- Urinary tract infection**, Radiological evidence of constipation in urinary tract infection, **534**
- Vaccines**, Acellular pertussis vaccines: *annotation*, **390**
- Vancomycin**, Cardiac arrest associated with vancomycin in a neonate: *correspondence*, **F123**
- Ventilated newborn infants**, Randomised, double blind trial of two loading dose regimens of diamorphine in ventilated newborn infants, **F22**
- Ventilation**, Application of measured spontaneous inspiratory and expiratory times to improve infant ventilation: *correspondence*, **F53**
- Vertical transmission**, Group B streptococcal infection: when does vertical transmission take place? **F46**
- Very long chain acyl-CoA dehydrogenase deficiency**, Mitochondrial very long chain acyl-CoA dehydrogenase deficiency - a new disorder of fatty acid oxidation, **F103**
- Very low birthweight infant**
Managing acute renal failure in very low birthweight infants: *current topic*, **F187**
Use of the CRIB (clinical risk index for babies) score in prediction of neonatal mortality and morbidity, **F32**
- VIP Bird Infant Ventilators**, Application of measured spontaneous inspiratory and expiratory times to improve infant ventilation: *correspondence*, **F53**
- Visceral damage**, Mechanism of visceral damage in fetofetal transfusion syndrome: *current topic*, **F48**
- Visceral leishmaniasis**, Visceral leishmaniasis: rapid response to AmBisome treatment, **157**
- Visual impairment**, Visual impairment in severe and profound sensorineural deafness, **53**
- Vitamin A supplementation**, Vitamin A supplementation in developing countries: *correspondence*, **275**
- Weight**
Body mass index reference curves for the UK, 1990, **25**
Cross sectional stature and weight reference curves for the UK, 1990, **17**
- Weight gain**, Conditional reference charts to assess weight gain in British infants, **8**
- West Indian children**, Coeliac disease in children of West Indian origin, **166**
- Wheezy infants**, The effects of inhaled beclomethasone dipropionate on lung function and histamine responsiveness in recurrently wheezy infants, **327**
- Whey hydrolysate**, Comparison of an elemental with a hydrolysed whey formula in intolerance to cows' milk, **211**
- White cell counts**, *Ureaplasma urealyticum* as a cause of pneumonia in preterm infants: analysis of the white cell response, **F37**
- White, Professor Richard H R**, James Spence Medallist 1995, **1**
- Zambia**, Childhood cancers in Zambia before and after the HIV epidemic, **100**
- Zinc**, Cerebrospinal fluid zinc concentrations in febrile convulsions, **338**
